

Our Broadway Bound Program offers a comprehensive and engaging curriculum designed to cultivate young performers' talents in dance, vocals, and acting. Each week, students participate in dedicated classes for each discipline, ensuring a well-rounded learning experience. Our program goes beyond the basics, aiming to provide more performance opportunities, encourage growth as a performer, and offer a professional learning environment tailored to students aspiring to pursue careers in the arts.

Program Highlights:

Dance Class: Students will develop their dance skills, focusing on techniques specific to musical theatre choreography. Emphasis is placed on expression, storytelling through movement, and stage presence.

Vocal Class: Students will receive vocal training, and learning techniques to improve their singing abilities, including breath control, pitch, tone, and interpretation.

Acting Class: Through acting exercises and scene work, students will enhance their acting skills, learning how to create believable characters, develop stage presence, and express emotions effectively.

Private Lessons: Each term, students receive two free 30-minute private lessons, allowing for personalized instruction and focused improvement in their chosen discipline.

Launchpoint Performance Group: Students have the opportunity to join our performance group, where they apply their skills in a professional setting. This group not only offers additional performance opportunities but also helps students refine their craft and gain valuable experience.

Fun and Exploration: While our program is structured and focused on skill development, we also believe in providing a fun and supportive environment where children can explore their creativity and passion for the arts.

Join our Broadway Bound Program and embark on a journey of artistic growth, skill development, and performance excellence!
